

ROCKET FUND

Pitch Creation Guide

How to create a pitch:

Just go to www.rocket.fund, click 'Get Started' and follow our simple instructions.

Ask yourself:

- **What** do you want to buy?
- **Why** do you want it?
- **How** are you going to use it / integrate it into your lessons?
- **Who** are you trying to appeal to?

Can't think of what you want?

For inspiration, check out our [template projects](#) or have a look at [past projects](#).

Remember:

- Make it personal! Add photos and videos to bring your pitch to life.
- You can only fundraise for digital technology
- The max target is £1,500 for first timers
- You can fundraise with us as many times as you like!

What would Donna do?

Check out [this interview](#) with a previous user for some great advice.

What next - just go for it!

We've supported loads of teachers through the process now, so don't worry - you're in safe hands! The best thing to do is just get cracking. Start creating your pitch and we'll walk you through the process - every step of the way.

Any questions / fancy a chat?
