

# ROCKET FUND

## Pitch Creation Guide

### How to create a pitch:

Just go to [www.rocket.fund](http://www.rocket.fund), click 'Get Started' and follow our simple instructions.

Ask yourself:

- **What** do you want to buy?
- **Who** is this going to benefit?
- **Why** do you want it?
- **How** are you going to use it / integrate it into your lessons?

### Can't think of what you want?

For inspiration, check out our [template projects](#) or have a look at [past projects](#) here.

### Remember:

- Make it personal! Add photos and videos to bring your pitch to life.
- You can only fundraise for digital technology
- The max target is £1,500 for first timers
- You can fundraise with us as many times as you like!

### What would Donna do?

Check out [this interview](#) with a previous user for some great advice.

### What next - just go for it!

We've supported loads of teachers through the process now, so don't worry - you're in safe hands! The best thing to do is just get cracking. Start creating your pitch and we'll walk you through the process - every step of the way.

### Any questions / fancy a chat?

Email us on: [hello@rocket.fund](mailto:hello@rocket.fund)
